EXPERIENCE

Student Associate, 2006-2008

Reed Elsevier, Gainesville, Florida

- Improved students' efficient use of LexisNexis tools through individual and group training meetings
- Increased student awareness and understanding of LexisNexis research tools and products

Legal Intern, Summer 2007

USPTO – Office of Patent Legal Administration, Alexandria, Virginia

- Successfully assisted with patent prosecution by researching prior art, performing claims interpretations, drafting an office action, and processing petitions
- Expedited processing of patent term extension applications filed under 35 U.S.C. 156 by analyzing applications for compliance with statutory and regulatory requirements and communicating findings to FDA and applicants
- Participated in USPTO initiatives by drafting, reviewing and revising proposed rule changes for ex parte and inter partes reexamination proceedings
- Increased office productivity by independently and effectively responding to customer inquiries directed to the Office of Patent Legal Administration

Law Clerk, Summer 2006

Brashear & Associates, P.L., Gainesville, Florida

- Simplified and consolidated relevant information for a copyright infringement action through research of pertinent federal and state laws
- Aided in formation of pretrial litigation strategy by collecting and compiling information from relevant case law concerning willful infringement, contributory infringement, vicarious liability and apportionment of damages
- Increased attorney productivity by assisting in the drafting of interrogatory and discovery requests

Scientist I/Chemist I, 2003-2005

Watson Laboratories, Salt Lake City, Utah

- Ensured timely release of drug products to manufacturing through timely and efficient analysis of drug products such as Testosterone and Fentanyl
- Maintained efficiency and accuracy of drug analysis protocols through maintenance of complex laboratory equipment
